PROJECTS

Portfolio — HTML, CSS, JS

<https://github.com/purviporwal1812/Portfolio-v1>

Assignment Tracker — Java

<https://github.com/purviporwal1812/Oops-project1>

-Java's OOP enables a modular and reusable design for your attendance and assignment tracker, enhancing code organization and maintainability.

-Utilizing encapsulation ensures data integrity by controlling access to variables through well-defined methods, preventing unintended modifications in your terminal-based tracker.

IP-Address Tracker(Frontend) — HTML, CSS, JS, Bootstrap

<https://github.com/purviporwal1812/IP-Address-Tracker>

-fully responsive Ip address tracker

SKILLS

Java, C++, C

HTML, CSS, JavaScript, React(Basics)
